

Summer Newsletter No. 1

Pride in ourselves, pride in our school, pride in our community.

Friday 20th April 2023

Nut Free School

A reminder that we are a nut free school. We have pupils and adults with allergies to nuts. Please ensure that nothing is sent into school which includes nuts, including sandwich fillings.

Disabled parking space

Some parents who do not have difficulties with mobility and whose children do not have difficulties with mobility have been using the disabled parking space. Not all disabilities are visible but we also know that we have children in the school who are being prevented from benefiting from the disabled parking space who really need it. Please can you consider the impact of this when you park in the mornings and afternoons?

Naming items of clothing

Can you check that all jumpers, cardigans and all other uniform are clearly named please so we can return them when handed in to lost property. Thank you for your co-operation

It's story time!

Year 1 welcomed Reception children into their classrooms this week and shared the moving picture stories that they had made in design and technology based on The Three Billy Goats Gruff. The pictures used levers, sliders and wheels to show the movement of the goats and the trolls. It was lovely to hear the children using different voices for the characters and to see the younger children joining in with parts of the story.

A letter from Jack

The children found that there had been an unexpected visitor upon their arrival back to school this week. The rather large footprints in our playground led to some interesting conversations about who they may have belonged to. After lots of speculation, the children received a letter from 'Jack' asking them to look out for the giant. The children enjoyed searching for the giant and making wanted posters. Next week, the children will continue with their 'Jack and the Beanstalk' topic, building up familiarity with the text and deepening their understanding of planting and life cycles.

Plants

Year 1 have started their new science topic - plants. We have been looking at the structure of flowering plants and thinking about the similarities and differences.
