Polite Reminder about Age Appropriate Content

Gothic Mede Academy is committed to keeping our children safe and to promoting the safe, responsible use of the technologies available.

It has been brought to our attention that some children in our school are playing video games and watching material on television and the internet that is not age appropriate. The age rating is a clear indication of the suitability of content and watching content rated higher than their age can be distressing for children. With many children having access to Smartphones and tablets, it is important that you are vigilant and discuss your child's internet usage with them regularly.

If school are concerned about something a child has been viewing we may have to contact Children's Services.
